THE TECHNIQUES OF PREPARING A SCIENTIFIC RESEARCH

Summary

Introduction:	3
Third chapter: Rules for editing scientific research.	4
First chapter: the concept, characteristics and types of scientific research	5
First section: Concept of scientific research	5
First sub-section: Definition of scientific research	5
Second sub-section: The importance of scientific research	9
Third sub-section: Scientific Research Targets.....	11
Second section: Characteristics of scientific research	13
First: Scientific research proceeds according to an organized and controlled method:.....	13
Second: scientific research is a theoretical research.....	14
Third: Objectivity:	14
Fourth: Scientific research is dynamic and innovative research ...	15
Fifth: scientific research is an accurate work that requires qualities from the researcher himself most importantly:	16
Sixth: Scientific research is a purposeful work, and the result it reaches has two basic characteristics:	16
Seventh: Scientific research is an interpretive research	17
Third section: Types of scientific research	18
First: Scientific research according to purpose.....	18
Second: Scientific research according to its field	20
Third: Scientific research according to specialization:.....	21
Second Chapter: Stages in the preparation of scientific research.....	26
First section: Preparation stage and topic selection.....	26
First sub-section: Self-preparation phase	26
Section Two: The topic choosing stage.....	31
First: Methods of choosing a topic	32

Second: the fundamental principles affecting the definition of the research problem.....	34
Second section: Stage of collecting sources and references (scientific documents)	39
First sub-section: Concept of scientific documents.....	40
Second sub-section: Legal research tools.....	40
Third sub-section: Locations of scientific documents	45
Fourth sub-section: Means of obtaining scientific documents.....	45
Third section: Stage of reading and contemplation	45
First sub-section: Reading Targets	46
Second sub-section: Conditions and rules of reading	47
Third sub-section: Types of reading	48
Fifth section: Stage of collecting and storing information	56
First sub-section: Meaning of the process of storing information ..	57
Second sub-section: Methods of storing information	57
Sixth section: Writing and blogging stage.....	62
First sub-section: Targets of writing scientific research and its components	63
Second Sub-section: Rules for Quotation and documentation	66
Third Chapter: Conducting scientific research - rules for editing scientific research -	81
First section: conditions for legal research.....	81
First sub-section: Formal conditions.....	81
Simplified Arabic, size 16, line spacing 1.5.	81
Traditional Arabic, size 16, line spacing 1.15.....	82
Sakkal Majalla Font size 16 Line distance 1.15.....	82
Simplified Arabic: coarse skewer, size 12	82
Traditional Arabic size 12	82
Sakkal Majalla Volume 12	82
Second sub-section: Objective conditions	84

Second section: Sections of scientific research.....	86
First sub-section: Legal research interface	86
Ministry of Higher Education and Scientific Research	87
Abbas Lagrou University - Khenchela -.....	87
Faculty of Law and Political Science	87
Second sub-section: Research introduction	90
Third sub-section: Search body	97
Fifth sub-section: Conclusion	98
Sixth sub-section: Appendices	99
Seventh sub-section: List of sources and references	100
Eightieth Sub-section: Index	103
Ninth Sub-section: Summary	104
Tenth Sub-section: Printing and discussion.....	104
Conclusion:	106
List of sources and references.....	108
First - Official texts:.....	108
Second - Books:	108
